SOCIOLOGY

ai maisais ("Core") vientaliana

shilled his bigh in salute

Paper: C-14

(Research Methods—II)

Full Marks: 80

Pass Marks: 32

Time: 3 hours

The figures in the margin indicate full marks for the questions

- - (a) "Social research is the investigation of the underlying process operative in the lives of persons who are in association."—Who said this?

Horrish dutibles III

- (i) E. S. Bogardus Mismontantio
- (ii) Cohen and Nagel
- (iii) P. V. Young

(Turn Over)

- (i) Scientific attitude
- (ii) Patience

SOUR RESIDE OF

- (iii) Biased attitude
- (c) Exploratory research design is
 - (i) rigid in nature
 - (ii) flexible in nature
 - (iii) Both (i) and (ii)
- (d) "A sample, as the name implies, is a smaller representation of a larger whole."—Who said this?
 - (i) Goode and Hatt
 - (ii) P. V. Young
 - (iii) Merton
- (e) Random sampling is also known as
 - (i) probability sampling
 - (ii) non-probability sampling
 - (iii) sampling error
- (f) Questionnaire is a
 - (i) research method
 - (ii) tool for data collection
 - (iii) data analysis technique

- (g) Who is the author of the book, Methods in Social Research?
 - out ass(i) Goode and Hattimes at tentwo
- (ii) P. VorYoung stoor in bouten
 - (iii) Cohen and Nagel on Josew (b)
- tion (h). Cluster sampling is aup to easi
 - (i) non-probability sampling method
 - (ii) probability sampling method
 - (iii) None of the above
- 2. Write short notes on any four from the following (within 150 words each): 4×4=16
 - (a) Types of social research
 - (b) Importance of hypothesis in social research
 - (c) Survey method
 - (d) Sources of hypothesis
 - (e) Difference between Questionnaire and Interview schedule
 - (f) Focused group interview
 - 3. Answer any four from the following (within 500 words each): 14×4=56
 - (a) Define social research. Discuss the major steps of social research. 4+10=14

Taul (Turn Over)

(c) What is sampling method? Discuss the basis and importance of sampling method in social research. 4+10=14 (d) What do you mean by questionnaire? Discuss the advantages and disadvantages of questionnaire method. 4+10=14 (e) Define interview method. Discuss the techniques and steps of interview in social research. 4+10=14 (f) What is statistical method? Discuss the role of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14		하는 사람들은 사람들이 가지를 잃었다. 그런 사람들이 되는 사람들이 사용하는 사람들이 되었다. 그렇게 하는 사람들이 없는 사람들이 되었다.
basis and importance of sampling method in social research. 4+10=14 (d) What do you mean by questionnaire? Discuss the advantages and disadvantages of questionnaire method. 4+10=14 (e) Define interview method. Discuss the techniques and steps of interview in social research. 4+10=14 (f) What is statistical method? Discuss the role of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (since of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (since of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (since of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14	2 (b)	Define research design. Discuss any one type of research design. 4+10=14
Discuss the advantages and disadvantages of questionnaire method. 4+10=14 (e) Define interview method. Discuss the techniques and steps of interview in social research. 4+10=14 (f) What is statistical method? Discuss the role of statistical method in social research. 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (g) Define median. Calculate the median from the following table: 4+10=14	(c)	hasis and importance of sampling
techniques and steps of interview in social research. (f) What is statistical method? Discuss the role of statistical method in social research. (g) Define median. Calculate the median from the following table: (g) Define median. Calculate the median from the following table: (Class Intervals Frequencies 0-10 2 10-20 12 20-30 20-30 30 50-60 30 50-60 12 20-30 30 50-60 12 20-30 30 50-60 12 20-30 30 50-60 12 20-30 30 50-60 12 20-30 30 50-60 10 20 20 20 20 30 30 50-60 50-60 50	(d)	Discuss the advantages and disadvan-
role of statistical method in social and research. The social states are social states and social states are social states. A+10=14 (g) Define median. Calculate the median from the following table: 4+10=14 (size of all states are social states are social states are social states. A+10=14 (size of all states are social states are social states are social states. A+10=14 (size of all states are social states are social states. A+10=14 (size of all states.
